REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

In the past year, the professionals at Allendale-Fairfax Middle School have spearheaded several initiatives aimed at increasing student achievement. Teachers were trained to work together using a proven, effective curriculum, additional teachers were hired to reduce class size, and an online-based lesson plan format was adopted to allow teachers to submit and share resources. Additionally, a separate Literacy and MAP period was added to the everyday schedule to increase proficiency in the areas of English and Math.

We have seen growth among our students in ELA and MATH with our MAP benchmarks, and we are hopeful our PASS results will also reflect this increase as well. However, we know that more is needed. We will continue to train our teachers to become proficient with technology in our schools and utilizing the Promethean boards in the classrooms to increase student achievement. We have also seen wonderful results with student transition with our Speed Sweep program, and this program has greatly reduced student tardiness at our school.

We are so fortunate to work with a supportive community and terrific students. Our combined efforts are creating a caring school environment that promotes high student achievement. We have made some great gains this year, which includes reaching 100% of our strategies on our Focus School Renewal Plan, but we have a lot of work ahead of us. With the continued support of parents and community, we will continue to have a learning environment that enables all students to reach their goals!
